DETAILED ACTION

Statement for Reasons of Allowance

1. The following is an examiner's statement of reasons for allowance:

Claims 1-26 are allowed because the prior art of record neither anticipates nor renders obvious the limitations of independent claims 1, 11, 21, 22 including a correcting data storage for which stores correcting data for correcting the ultraviolet ray value; an ultraviolet ray value correcting programmed logic circuitry which corrects the ultraviolet ray value detected by said ultraviolet ray value detector based on said correcting data; and a game process programmed logic circuitry that executes the game based on the game program stored in said game program storage and the operating information input by said at least one operating control, and uses the ultraviolet ray value corrected by said ultraviolet ray value correcting programmed logic circuitry to affect the game.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
